## I. Ability to cover costs

Proof of adequate funds to cover education and living expenses while in the United States is of major concern to schools and the U.S. government as well as to students. To complete the admission process and satisfy consular officials' requests for financial documentation, please read the cost information carefully and be sure to send all supporting financial documents requested below. The form I-20 the certificate of student visa eligibility, can only be issued after the student has submitted full financial documentation to the admission office. A student coming to the United States with insufficient funds will encounter many difficulties which may include being required to withdraw from the school and return home

Listed below are estimated costs for the upcoming school year. Additional estimated expenses a student can expect to pay include: tuition, fees and living expenses. You should expect the total annual costs to increase by three to six percent each year.

## II. Estimated costs for the 2009-2010 academic year

Tuition .....	\$5,000.00
Living Expenses .....	\$6,000.00
Fees .....	\$425.00
<b>Total charges .....</b>	<b>\$11,425.00</b>
